REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation #: 907 KAR 3:210

Contact Person: Stuart Owen (502) 564-4321

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the Medicaid program coverage provisions and requirements regarding acquired brain injury (ABI) long-term waiver services. The ABI long-term program enables individuals who have suffered a brain injury to live, and receive services, in a community setting rather than in an institution.

(b) The necessity of this administrative regulation: The administrative regulation is necessary to establish coverage policies for the Medicaid ABI long-term waiver program.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The administrative regulation conforms to the content of the authorizing statutes by establishing Medicaid ABI long-term coverage provisions and requirements for a program that enables individuals who have suffered a brain injury to live, and receive services, in a community setting rather than in an institution.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The administrative regulation will assist in the effective administration of the authorizing statutes by establishing Medicaid coverage provisions and requirements for a program that enables individuals who have suffered a brain injury to live, and receive services, in a community setting rather than in an institution.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation. The amendments include establishing new federally-mandated case management requirements (that case management be free from conflict of interest); establishing federally-mandated requirements regarding the plan - the new term is person-centered service plan and the prior term was plan of care - that is used to identify the amount, duration, and types of services that a participant in the program receives (the plan is now called a person-centered service plan); requiring, as federally mandated, that an online portal (Medicaid Waiver Management Application or MWMA) be used to apply for admission to the program and to complete forms and documents associated with the program; adding new rights that must be guaranteed for individuals receiving services; requiring providers to check the Caregiver Misconduct Registry before hiring an individual and prohibits the hiring of anyone listed on the registry; narrowing the types of incidents to be reported from three (3) classes to two (2) and revising the incident reporting process by requiring incidents to be documented online in the new MWMA; revising the application process by requiring it to be done via the new MWMA; incorporating new forms by reference (a MAP -115 Application Intake - Participant Authorization used by individual to designate an individual to apply for 1915(c) home and community based waiver services via the MWMA on behalf of the individual; a MAP – 116 Service Plan – Participant Authorization used by an individual to authorize someone to represent them in person-

centered service plan development and entry in the MWMA; a MAP-531 Conflict Free Case Management Exemption form used to request an exempt from the conflict-free case management requirement; and updating a couple of other forms. Additionally, the amendment deletes incorporated material that is being obsoleted due to implementation of a new online portal (MWMA).

The amendment after comments deletes an error regarding case management face-to-face contact requirements; clarifies that documentation of various services must be entered into the MWMA; clarifies that services provided by a support broker must be conflict free; and revises the MAP 531, Conflict Free Case Management Exemption by inserting a statement requiring documentation of denials of qualified providers within thirty (30) miles from the participant's residence.

(b) The necessity of the amendment to this administrative regulation: The primary amendments (revising the case management requirements, establishing person-centered service plan requirements, and requiring a new online portal (MWMA) to be used) are mandated by the Centers for Medicare and Medicaid Services (CMS) via a CMS rule published January 2015. Requiring providers to check the caregiver misconduct registry regarding potential staff and to not hire anyone listed on the registry is a safeguard to enhance participant safety and welfare. Reducing the classes of incidents is an effort to synchronize incident reporting requirements among DMS's 1915(c) home and community based waiver services programs. Introducing new incorporated material is necessary to allow participants to designate individuals to use the new online portal (MWMA) and/or perform related activities. Eliminating the case management face-to-face contact requirement is necessary to remove an error (in response to public comment).

Clarifying that documentation regarding services must be entered into the MWMA is necessary for clarity. Clarifying that support broker services must be conflict free is necessary to comply with a federal mandate. Revising the MAP 531, Conflict Free Case Management Exemption is necessary to document that no qualified provider is available.

(c) How the amendment conforms to the content of the authorizing statutes: The amendments conform to the content of the authorizing statutes by complying with federal mandates to ensure the receipt of federal funding for the ABI waiver program and by enhancing participant safety and welfare.

(d) How the amendment will assist in the effective administration of the statutes: The amendments will assist in the effective administration of the authorizing statutes by complying with federal mandates to ensure the receipt of federal funding for the ABI waiver program and by enhancing participant safety and welfare.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: The administrative regulation affects individuals receiving ABI waiver program services (participants) as well as

providers of these services. Currently, there are 223 individuals receiving services, 210 on the waiting list to receive services, and thirty-two (32) providers enrolled.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Providers will need to ensure they comply with the conflict free case management requirements.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No cost is imposed.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Individuals receiving services will benefit from greater involvement and direction in the types of services they receive as well as when and where they receive the services which will enhance their independence as well as assimilation in their local community.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) anticipates that the amendments to this administrative regulation will be budget neutral initially.

(b) On a continuing basis: DMS anticipates that the amendments to this administrative regulation will be budget neutral on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement the amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The amendment neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it.

1. Federal statute or regulation constituting the federal mandate. 42 C.F.R. 441.730(b) and 42 C.F.R. 441.725.
2. State compliance standards. KRS 205.520(3) states, "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."
3. Minimum or uniform standards contained in the federal mandate. Among the mandates in 42 C.F.R. 441.730(b) are that services to waiver participants are free from conflict of interest. In the context of the ABI program that means that the individual who provides case management to a given waiver participant provide actual ABI waiver services or work for an entity that provides actual ABI waiver services or entity that has a business interest in a provider of actual ABI waiver services. 42 C.F.R. 447.425 establishes the person-centered service plan requirements which are many but the underlying requirement is that the plan be customized to the individual's needs (based on input from the individual or representatives of the individual among other parties) and promote/enhance the individual's independence and choice in their services and activities as well as integration their community.
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The amendment does not impose stricter, additional or different requirements than those required by the federal mandate.
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Stricter requirements are not imposed.
